

## Why Louisiana Businesses Support Common Core

Louisiana employers have always recognized the critical link between quality schools and a well-prepared workforce. The demand for skilled workers in high-demand occupations continues to outpace available supply. The Common Core State Standards will prepare Louisiana students with essential, real world knowledge and skills to fill the Louisiana jobs that away them. Education's Next Horizon, in partnership with ExxonMobil, is working to raise employer awareness of and support for these new standards and the positive impact they will have on preparing students for success in post-secondary education and the workplace. *Listen to what Louisiana business leaders say about Common Core:*

Expect More, Achieve More
